Exchange and Industry Sponsored Webinars are presented by unaffiliated third parties. Interactive Brokers LLC is not responsible for the content of these presentations. You should review the contents of each presentation and make your own judgment as to whether the content is appropriate for you.

Interactive Brokers LLC does not provide recommendations or advice. This presentation is not an advertisement or solicitation for new customers. It is intended only as an educational presentation.

Disclosure:

Options involve risk and are not suitable for all investors. For information on the uses and risks of options, you can obtain a copy of the Options Clearing Corporation risk disclosure document titled Characteristics and Risks of Standardized Options by visiting ibkr.com/occ. Multiple leg strategies, including spreads, will incur multiple transaction costs.

Futures are not suitable for all investors. The amount you may lose may be greater than your initial investment. Before trading futures, please read the [CFTC Risk Disclosure](#). For a copy visit interactivebrokers.com.

There is a substantial risk of loss in foreign exchange trading. The settlement date of foreign exchange trades can vary due to time zone differences and bank holidays. When trading across foreign exchange markets, this may necessitate borrowing funds to settle foreign exchange trades. The interest rate on borrowed funds must be considered when computing the cost of trades across multiple markets.

The Order types available through Interactive Brokers LLC's Trader Workstation are designed to help you limit your loss and/or lock in a profit. Market conditions and other factors may affect execution. In general, orders guarantee a fill or guarantee a price, but not both. In extreme market conditions, an order may either be executed at a different price than anticipated or may not be filled in the marketplace.

There is a substantial risk of loss in trading futures and options. Past performance is not indicative of future results.

Any stock, options or futures symbols displayed are for illustrative purposes only and are not intended to portray recommendations.

SMART FARMS

WEILD&CO.

Introduction

Indoor farming can produce up to 100x more food per Sq.Ft. with 90% less Water

As urban populations grow, efficient food production is not just a goal but a necessity. However, the journey is filled with challenges, misconceptions, and doubts.

The Investment Paradox in Controlled Environment Agriculture (CEA)

Opportunity: A booming market with innovations catering to urban food security. Lessons learnt have paved a way for future success.

Challenge: High Profile Bankruptcies have tainted the industry leading to skepticism.

Primary concerns:

- Unproven technologies
- Exaggerated claims
- Profitability

Meet Our Experts:

Dr. Joel Cuello

Funding for Vertical Farming

- What types of funding do you consider to be appropriate today given the market?
- Is there a novel type of financing that the Vertical Farming Industry has yet to tap into?
- How do you think you have been successful in financing your vertical farming enterprise?

Profitability, Growth and Expansion

Where does the proper balance lie between profitability, growth and expansion?

Where are we today from an investor's perspective?

In the Vertical Farming Landscape, both geographically and financially, do you agree it is currently a buyer's market?

If it is a buyer's market, how can investors safely navigate it?

Questions & Answers and Closing Remarks

Blending Wisdom with Possibilities for a Greener Tomorrow

There is an important balance between innovation and practicality in Controlled Environment Agriculture (CEA). As the sector evolves, it's crucial to merge traditional farming wisdom with new technologies. Our collective goal remains clear: pave a sustainable, beneficial agricultural future for all.
